Post-Hegelian

Hegl contradiction source of movement
introduce into logic
deduce universe of concepts mit notwendigkeit

antithesis

German historical school
history of religions school
history a matter of empirical research

synthesis

contradiction certainly a source of movement
in logic : violation of basic principle
in method: people disagree
people change their minds in light of new evidence

what is philosophy of... = method of ...

hisotry = method of historical investigation
religion = method of investigating history of religions

collingwood following croce

Method (1) recipe, prescription, set of directions
always the same result: The New Method Laundry
(2) ongoing development of results: <u>science progressive</u>

How: reflect on qq & aa
qq intend the answer of understanding
do not know the answer yet - just <u>experiences a lack</u> re precise data
set the objective, what one is aiming at, intending
set the criterion for a satisfactory aa → <u>when lack vanishes</u>
interchange
insufficient answers not useless : reveal insufficiency
help questinner clarify his q
(1) between two individuals
(2) ongoing inteechange betweeen members of association (<u>page 4 f.</u>)

Three basic types of question, interconnected in ascending order
Why? How? What?
Are you sure?
Is it a good thing? Do we really want atomic bombsz?

Now whole ascensional structure
Underpinned immediately by sensibility (senses feelings memories imagination
sensibility supported by unconscious (pp. 8 - 10)
