Theology

1) Final object — God; all in relation to God

2) Mediating object — Xt & the members
- not immediate as Beatific vision
- not just Xt as in human philosophy, religion

- not just data — natural science
- not just data + constitutive meaning — human science; Xianity as part of history of religion
- not just data + constitutive meaning + Word of God — Xt as Word of God
  - revelation
  - incorporation
  - transformation
  - mediation
  - pp TT
  - sense fidelium

3) Mediating principle [immediate source not]

not man as unredeemed
not commonsense reason
- rationalist — denying spirit
- idealist — underlying spirit with motives

but man redeemed = in grace of Holy Spirit

as in ordinary knowing — relation per fidem, charitatem — supposed
- rationalism, idealism
- faith, reason

| fides qua, not
| not qua fidem

4) Division of Theology

Result of development (≡ process of differentiation + integration)

| Practical exigence
| Systematic exigence
| Critical exigence
| Methodical exigence
