History & Systems

A There is a systematic component to human living

1) Assimilation
2) Accommodation

→ cure. op.

α) Project
β) Mythic approximation of course : Teleonomic

B History is the history of
in a basic respect

- systems
- their dev.
- their interpretations
- " breakdowns

C { Thus a priori of history is B
{ its a posteriori is from the data

D History theory is a circle of generalizations in the
purely intellectual system { what did they experience
{ how did they understand

De bono humano

I bona particularia

II bonum ordinis, civilis et sociale – sociale

[recurrunt bona particularia regulandi
quaedam coordinatio
habitus, institutiones
relationes interpersonales, etc.]

① ex dominatione naturae : technica

② ex ordinatione actuum humanorum

| ordo domesticus
| " oeconomicus
| " politicus

III valores : unus ordinis sint bona, bona culturae

culturales

| aesthetici : obiectum intelligibile in sensibilibus
| ethici : subiectum rationabile : verum, honestum
| religiosus : homines coram Deo
| in mundo historico
