

to look at
Anschauung - looking at; aspect

Why an category is not Anschauung
more logical?
Why not potentially determinate?
metaphysical?

only means for immediate knowledge of objects

understand only mediately

concepts of themselves: mediately
only logical if categorical
argument omitted

Idea of non only mediately

i.e. is not in a logical sense

Qualitative Anschauung exists

but it is not of things themselves

only of appearance

of phenomena when subsumed under category

that Anschauung is of objects is not due to Anschauung
but to understanding | 210, 32

Intellectual Anschauung

negative meaning: of things themselves

not contradictions

but we do not have it
