Dear Father Lonergan -

with great joy I receive just your letter with the text of the contribution what you have kindly accepted to make for our volume on 'Problemi e prospettive di Teologia dogmatica'. I thank you very much, above all that you have written this article so soon. That allows to me to provide with greater tranquillity the translation.

To me it is most interesting to see that mainly the collaborators advanced in age are the first-ones in delivering their paper - so beside yourself F. Congar and F. Rahner.

When the translation will be ready you will hear anew from me. Now I want only to profit by this occasion to send you greetings for the near time of Christmas and for the beginning of a New Year.

Thank your very much

Your's sincerely in Christ

Karl H. Neufeld
