

Seminar on Economics, Spring, 1978.

Towards a Bibliography:

- (a) Method, Paradigms, Models (Systematic and Historiographic).
- B. Lonergan, (i) Viewpoint and Method (from early Mss.)
(ii) Method in Theology, Longmans, London, 1972, chapters 1, 8-11.
- P. McShane, "An improbable Christian Vision and the Economic Rhythms of the Second Million Years", Boston Conference Volume, Scholars Press, 1978.
- J. Robinson, Economic Heresies: Some Old-Fashioned Questions in Economic Theory, Basic Books, New York, 1973.
- N. Kaldor, "The Irrelevance of Equilibrium Economics", Economic Journal, 82, 1972, 1237-1255.
- A. Burns, The Frontiers of Economic Knowledge, Princeton University Press, 1954.
- A. Lowe, On Economic Knowledge. Towards a Science of Political Economics, Harper and Row, New York, 1965.
- T. C. Koopmans, "Measurement without Theory", Readings in Business Cycles (The Series of Republished articles on economics, Vol.X), R. A. Gordon & L. R. Klein (eds.), Irwin, Homewood, Illinois, 1965, 186-205.
- B. J. Loasby, "Hypothesis and Paradigm in the Theory of the Firm", Economic Journal, 81, 1971, 863-885.
- M. Blaug, "Kuhn versus Lakatos, or Paradigms versus Research Programmes in the History of Economics", History of Political Economy, 7, 1975, 399-433.
- (no author) American Economic Review, 55, May 1965, "Economic History: its Contribution to Economic Education, Research, Policy", 86-118; "The Contribution of the History of Economic Thought to the Understanding of Economic Theory, Economic History and the History of Economic Policy", 119-149. (Each is a set of articles and discussions).
- J. Topolski, "The Model Method in Economic History", The Journal of European Economic History, 1, 1972, 713-725.

- G. G. Iggers, New Directions in European Historiography, Wesleyan University Press, Middletown, Connecticut, 1975.
- K. W. Hardach, "Some Remarks on German Economic Historiography and its Understanding of the Industrial Revolution in Germany", The Journal of Economic History, 1, 1972, 37-99.
- M. Levy-Laboyeur, "La 'New Economic History'", Annales, 24, 1969, 1035-69.
- A. Fishlow, "The New Economic History Revisited", The Journal of European Economic History, 3, 1974, 453-467.

(b) History of Theories of Economic Fluctuations:

- R. G. Link, English Theories of Economic Fluctuations, 1815 to 1848, Columbia University Press, New York, 1959.
- † H. Smith, "Marx and the Trade Cycle", The Review of Economic Studies, IV, 1936-37, 192-204.
- W. Mitchell, Business Cycles: The Problem and its Setting, National Bureau of Economic Research, New York, 1927.
- J. Schumpeter, History of Economic Analysis, Oxford University Press, New York, 1954, 688-850; 1974-1135; 1160-1169.
- D. Hamberg, Business Cycles, The Macmillan Company, New York, 1951.
- G. R. Feiwel, The Intellectual Capital of Michael Kalecki, A Study in Economic Theory and Policy, The University of Tennessee Press, Knoxville, 1975.

(c) Analysis:

- B. Lonergan, Circulation Analysis (early Mss.)
- M. Kalecki, Selected Essays on the Dynamics of the Capitalist Economy 1933-70, Cambridge University Press, 1971.
- R. Frish, "Propagation Problems and Impulse Problems in Dynamic Economics (first published 1933), Readings in Business Cycles, R. A. Gordon & L. R. Klein, (eds.), Irwin, Homewood, Illinois, 1965.
- J. Tinbergen and J. J. Polak, The Dynamics of Business Cycles, The University of Chicago Press, 1950.

- J. Robinson and J. Eatwell, An Introduction to Modern Economics, McGraw-Hill, Maidenhead, England, 1973.
- (d) Historico-empirical, in need of the new context:
- C. Juglar, Des crises commerciales et de leur retour periodiques, Paris, Librairie Guillaumin, 1889.
- K. Marx, Das Kapital.
- J. Schumpeter, Business Cycles, Vols. 1 and 2, McGraw-Hill, New York, 1939.
- W. Mitchell, What happens during Business Cycles? A Progress Report, National Bureau of Economic Research, The Riverside Press, Cambridge, 1951.
- O. Morgenstern, International Financial Transactions and Business Cycles, Princeton University Press, 1959.
- M. Bronfenbrenner, Is the Business Cycle Obsolete? Wiley - Interscience, New York, 1969.
- S. Sober, The Economics of Cycles and Growth, John Wiley, New York and London, 1968. (See review by J. C. Odling-Smee, Economic Journal, 79, 1969, 586-88).

This section is open to indefinite expansion, initially from the footnotes of the works referred to in the first three sections. It represents a take-off zone for the spiral of method, through a newly-mediated research and interpretation to a rewriting of economic history and towards a positional component in dialectics.
