Operation + Meaning - The Content of Meaning - Its Possibility

① Pragmatic sanction

Trobriand Islanders: quite reasonable in planting, harvesting
for the rest, lost in myth & magic

Development of Civilization

⊕ Egypt Babylon etc - wide sphere of human activity
for the rest, myth & magic

⊖ Empirical science

for the rest, "No metaphysics" Dead

② Transcendent Essential function

⊕ we already know real world
in regard to scepticism any systematic
primitivism - common sense (sophisticated)

⊖ but this "already knowing real world"
is just a set of groups of material & symbolic practices

and scepticism etc is just playing with ivory tower
denying any real influence in world but write
one essay de lettre here, and one also does very little good

③ Immanent doubt

Truth is certainly unattainable

There exists an intellectual pattern of experience: for as unfulfilled
by post & bites

It contains its own criticism: truth, unconviction

It contains a basic, differentiable group of questions
but yields a surplus of questions, methods, metaphysics
to self-appropriated intelligent rational consciousness

Operation & Meaning - The Content of Meaning - Its Attainment

1. The immanent content may be operative in acta exercito
in acta signata
according as it itself ^{is} an operand of symbolic operations
2. To discover & express an adequate account (in acta signata) of the immanent content has been the gradually developing (& perpetually disputed) work of philosophy
3. The immanent content (in acta exercito) as spontaneously operative may be applied to particular symbolic operations or to the total perspective, the Weltanschauung
4. The former presupposes the Weltanschauung, the Weisheit
5. The latter comes up for attention only in special circumstances as:
contrast of different cultures:

Hebrew prophets: idealizing identity
Herodotus: comparing Persia, Greece, Egypt
Democritus, Plato: criticizing Persia culture
