

a Relation

one simple
 seen from minus } absolute
 one the simple
 the seen from minus

d
Exhaustive

one ad is regard to
 ratios: determined by checking
 rules: determining the thinking
~~possible relations~~ } ~~take ad~~
 accident

found as one
one take + how take
one take seen from minus
 empirical } quantitative
 intelligible }

b
Transcendental

what is not being but transcends being
 fruit of metaphysical analysis

existence as such } transcends being
 essence
 matter

Intelligible structure of reality

10 Recall Par being
Being something
Grade of being

11 Substance & Accident

Any substance

essence simpliciter

change only is change of nature

Accidents of substance possibilities

essence simpliciter plus it minus

are in a category

are not abstract in category

because limitation perfect

understand nothing

weight, color, etc. but, it

Spiritual accidents not material accidents

no possibility of accident of person
for the plus of essence

Material accidents

possibility of plus minus to be possible

numerically exhaustive

Purely material accidents = local motion

possibility = quantity

possibility is a continuum of pure

numerical difference

pure local motion is dynamic

continuum of pure

numerical difference

Space-time

Material presence is the possibility of
purely material action or passion

Dimensionality in the material is

This possibility since material is

essence plus it minus

Measure of this possibility: interval

Number of intervals each will then

at equal intervals each will then

t
m
x
y
z

Time I
Measure I

Space-time is material presence
Dimensionality is a limitation
of space-time

Change within species } at change of being in being
 genus }
 outside genus } immaterial emergence
 under material circumstances
 being doing things

Composition: several beings into one
 ∴ several ones to physis

Dissolution: one being into several
 physis results to act

material being changes to material being $\xrightarrow{H_2 + O \rightarrow W}$
material being changes to immaterial being
 imposs. ∴ transition through
 being - such

many material beings → single form

change metaphysical A (another abstract) being B (immaterial abstract)

Material Being changes from form A to form B

1. Comprehension of Forms - physis of matter
2. What changes is material being
3. Problem of composition's dissolution
 being actuality of physis or changing

Spiritual Being changes essence

After spiritual case ∴ Essence spiritual

rather with
 Against opinion that "attentions are not"
 Form is qualitative non-educative

14 Form: nature or intelligible ground for
type of limitation of actus puri

Matter: principle of individuation for such
a nature

is such a matter: type of actus

∴ many such matters

why different? Matter y 8

Real Distinction of Matter & Form

Matter intrinsically intelligible

Form intrinsically intelligible

∴ real distinction

15 Essence: nature here = matter plus form

intrinsically intelligible

form in story

matter in form

Example: empirical y 2

∴ real distinction

16 Substance esse tot simpliciter

Accident esse tot secundum partem & minus

∴ real distinction

esse absolute

esse ad

∴ real distinction
